

Equity Index Fund

Fund overview

The Equity Index Fund seeks to capture the growth potential of large companies and achieve broad diversification with low cost by fully replicating the Standard & Poor's (S&P) 500® Index. Representing approximately 80% of the total US equity market capitalization, the S&P 500® Index is one of the most widely followed benchmarks of US stock market performance. Introduced in 1973, this fund was the investment management industry's first institutional S&P 500® Index fund.
